ASX ANNOUNCEMENT

2 August 2013

Appendix 3Y Late Lodgement

The Appendix 3Y lodged on Tuesday 30 July 2013 was lodged outside the time prescribed by ASX Listing Rules.

In relation to the late lodgement of the Appendix 3Y, I advise that the late lodgement occurred due to the fact that the relevant Director had instigated an automatic purchase some time previously and which was effected whilst he was travelling. This resulted in his not being aware of the trade until considerably after the required period for notification to ASX had expired.

The Company has entered into an agreement with each of its Directors requiring the Director to notify the Company promptly of changes in holdings of the Company's securities that may give rise to a disclosure obligation. The Company Secretary regularly reminds Directors of their requirements in regard to the relevant ASX Listing Rule.

The Company believes its current arrangements are adequate to normally ensure timely notification of its disclosure obligations.
